In Re: Nissan Radiator/Transmission Cooler Litigation, Case No. 10-CV-07493

OBJECTOR: Ward P. Erickson
P.O. Box 1211
Port Angeles, WA 98362
(360) 928-0192

Docket in # _____ CV/CR _____
As: *objection*
Date: *1/25/13*

As of this date, I own a 2007 Nissan Frontier. Vehicle Identification Number is: 1N6AD06W77C445314. Current mileage is: 39,710 miles.

On August 18, 2012, my vehicle lost one quart of coolant. There was no sign of coolant leakage into the engine compartment and no coolant transferred to the reservoir.

On August 22, 2102 (mileage = 38,127 miles), I took the vehicle to the Nissan dealer to have the cooling system checked. The Service Advisor changed my wording from "one quart of coolant" to "a little coolant" on the service order. The dealer replaced the coolant and tested for leaks. (copy of the service order attached.)

I feel that since there was no sign of external leakage of coolant, there is a strong possibility that coolant leaked into the transmission. I feel there is a strong possibility of transmission failure in the future.

The first sign of radiator problems occurred during the sixth year of my ownership. Therefore, I should not have to pay ANY customer co-pay amounts during the eighth and ninth years of extended radiator warranty. (No co-pay during the ten year period.)
